IDISE PRAISE

Front-end Developer
Computer Technician

PROFILE

I am looking for an entry-level position to start my career in a high-level professional setting. I also want to find a responsible job where I can put my training and skills to good use while also contributing to the company's success.

EXPERIENCE

Front-end Intern | HNG Internship
Oct – Dec 2022
- My team and I worked together to create a love letter generator, and I contributed by creating functional pages such as the reset password and contact us pages.
- I also built a "Linktree" clone with React.js for customizing your bio links.
- I built "Metabnb," a landing page for renting hotels in the Metaverse, with React.js.

Apprentice | Nobok Computers
Nov 2017 – Mar 2018
- I gained knowledge of computer hardware configuration.
- I learned the proper procedures for installing and managing software on a computer.
- I learned the proper steps for troubleshooting a computer as well as how to perform regular computer upgrades.
